

OIL LEAK STOPPER

Submitted by Dorothy M. Hartman - Inventor
to BP Oil Company or others involved in cleanup

If your engineers build this, you have
my permission to use this right away to help
the situation in the gulf. I would simply
ask that I retain the intellectual property
and that I be appropriately compensated - is all as
I just want to help the country if it works. You may
call my cell to discuss details 215-435-3265

Best Regards

D. Hartman
